Silca Residential Remotes

The all-new range of Silca i.am remotes is the most complete solution available to guarantee a professional service for duplicating residential remotes for garage doors, gates, barriers and awnings. All the i.am range of remotes features the unique, 4-LED guide to help make duplicating an original remote with Silca easier and more secure.

- Guided duplication using i.am Pro App

- Unique 4-LED guide

- Ergonomic design in 6 stand-out colours

- Fast, reliable duplication

- Customizable with customer logo

- Range of unique support tools

- i.am BT updatable with new applications

- Designed and Made in Italy

Four i.am product levels cover the broadest range of fixed and rolling code remotes on the market, offering the possibility to copy face-to-face, using the Silca Easy Scan Plus or, easiest of all, via Bluetooth using the Silca i.am app. With 6 striking new colours and a textured finish, Silca i.am remotes look and feel as professional as they are to use.

WIDE COVERAGE

The Silca i.am remotes range offers the widest coverage on the European market with over **130 brands and 900 different models able to be duplicated.** The range covers fixed and rolling code remotes with frequencies from 433.92 to 868.35 MHz as well as a comprehensive range of remotes using 128 bit technology. Remotes with Quartz technology with frequencies from 27 to 40.685 MHz are also covered using the existing Silca Air4 Q model.

SILCA QUALITY

Silca i.am remote is made in Italy and CE-compliant.

MADE IN **ITALY**

$C\epsilon$ CERTIFIED

UNIQUE 4-LED GUIDE

I.am remotes are unique in featuring 4 LEDs to guide the duplication process. LEDs indicate that the duplication was successful or whether an ALS or an OEM procedure is required at the receiver to complete the process. The exclusive battery warning LED helps ensure the customer is never caught out with a flat remote battery.

Copy successful

ALS procedure at receiver required

OEM procedure required at receiver

Light flashing: change battery

Backed up by Silca's comprehensive package of support tools including tutorial videos, step-by-step procedures and the unique MYKEYS Pro portal, the i.am remote range is the smart choice for duplicating residential remotes.

Textured body shell

Grooved, gloss finish buttons for easy identification

EYE-CATCHING - ERGONOMIC DESIGN

All the i.am models are available in **6 standout colours; dark stone, capri blue, olive green, burgundy red, wisteria and orange.** The ergonomic body shell is textured, contrasting with the smooth, black push-buttons with individual grooved designs for identification at a touch.

FAST - RELIABLE DUPLICATION

A more efficient receiver included across all the i.am range means that Silca remotes are less sensitive to the distance and positioning in relation to the original remote in face-to-face copying for an easier, secure duplication process.

CUSTOMIZED REMOTES

Silca offers the possibility for customers to personalize the i.am remote by printing a company logo and contact details on the rear. There is a minium order quantity of 72 which can be split across different colours. Contact your Silca representative for more details.

Logo and contact detail customization

MYKEYS Pro

I.AM BT AND I.AM PRO APP

The new i.am BT remote works together with the exclusive i.am Pro app using Bluetooth technology to guide you step-by-step through the whole the whole duplication process, from identifying the original remote to confirming the copy has been made correctly. More complex procedures such as for source code remotes or for the latest 128 bit technology for brands like Cardin*, Came*, Hörmann*, Beninca* and Prestel* are handled with ease.
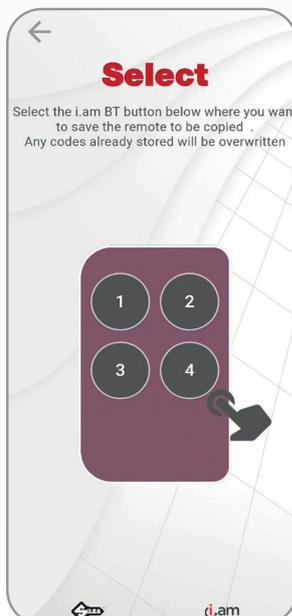

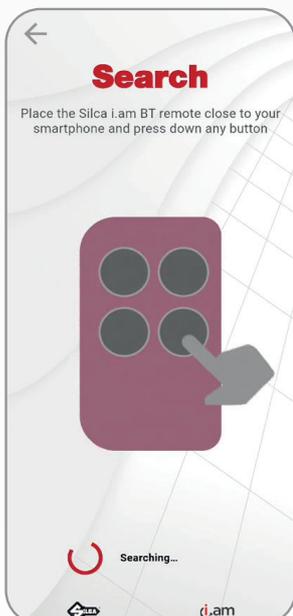

The i.am Pro App offers numerous other benefits for a successful remotes duplication service:

- Identifies which original remote is saved on each i.am BT push button.

- Indicates what type of procedure is needed to save the new remote on the receiver.

- Resets the i.am BT remote by cancelling the original remote saved to each push button.

- Updates i.am BT remotes with the latest software for new applications.

Welcome!
Congratulations on choosing SILCA i.am BT!

- Informs how to recover the original remote data for source code remotes.

Once installed the app can be accessed using your MYKEYS Pro log-in credentials.

Search
Place the Silca i.am BT remote close to your smartphone and press down any button
