# TECHNICAL INFORMATION

**EN - The range of Silca Vehicle Key Shell is the ideal solution for replacing damaged or worn plastic or mechanical key parts. The Silca shell can then be combined with the original electronics to create a 'new' car key. The comprehensive range covers the most popular car makes and models in circulation.**

**IT -** La linea Vehicle Key Shells Silca è la soluzione ideale per tutte le situazioni in cui la chiave originale è inutilizzabile causa danneggiamento della componente plastica, meccanica oppure semplicemente usurata dal tempo. La componente elettronica viene invece riutilizzata inserendola nel nuovo guscio chiave dando nuova vita alla chiave originale. La gamma Vehicle Key Shells Silca copre i modelli auto più popolari in circolazione.

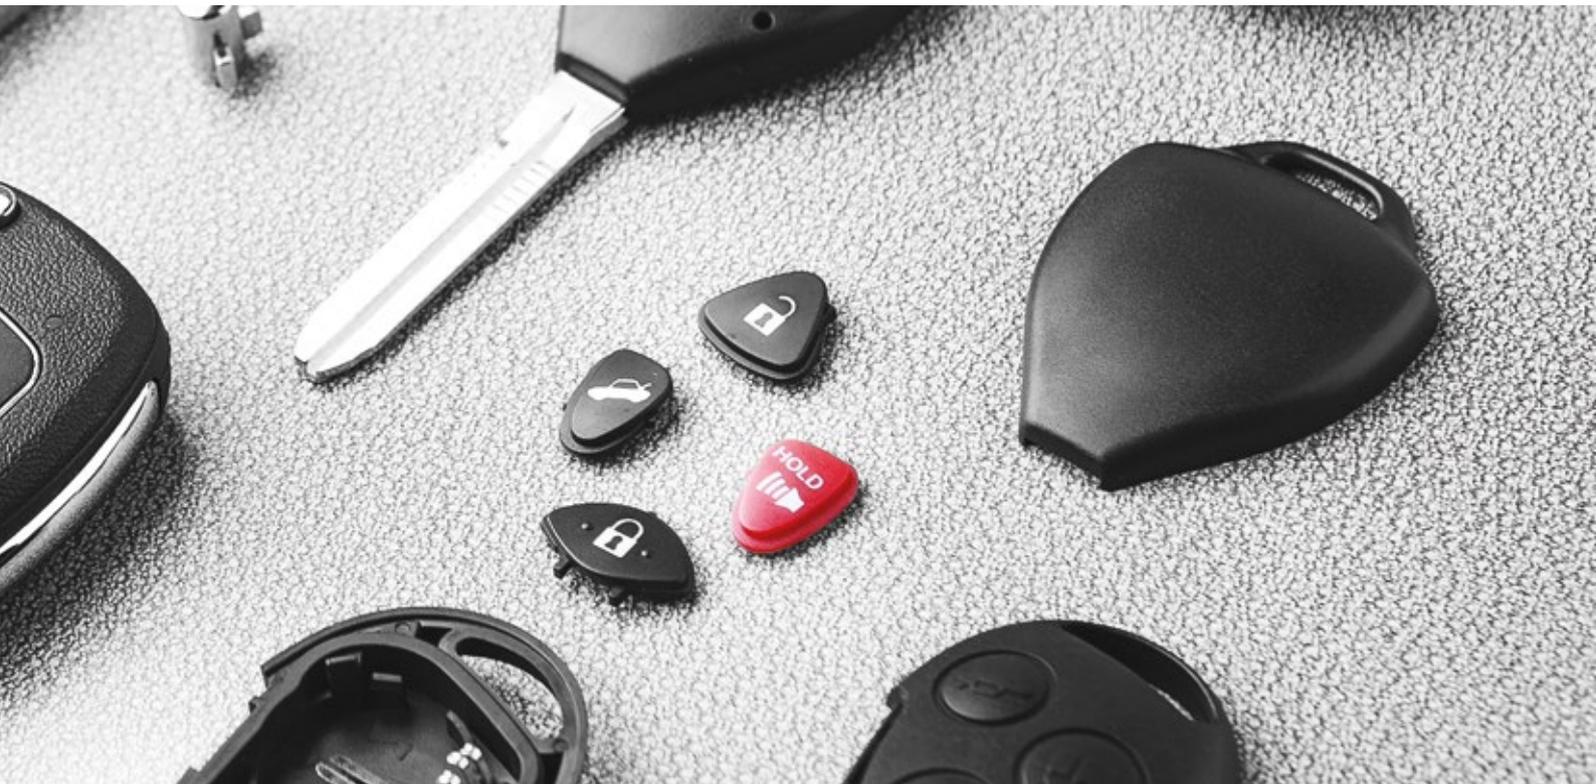

**ES -** La gama de Carcasas Silca para llaves de vehículo es la solución ideal para reemplazar las carcasas dañadas, desgastadas o con las partes mecánicas dañadas. La carcasa Silca puede montarse con el resto de componentes no dañados de la llave original, para crear una llave en el vehículo con el aspecto y la funcionalidad de una llave nueva. Las Carcasas Silca abarcan las marcas y modelos más populares en circulación.

**DE -** Der Umfang der Silca Fahrzeugleergehäuse ist die ideale Lösung, um defekte oder abgenutzte Plastik- oder mechanische Schlüsselteile zu ersetzen. Das Silca Leergehäuse wird in Kombination mit den elektronischen Teilen des Originalschlüssels zu einem "neuen" Fahrzeugschlüssel. Das umfassende Sortiment deckt die gängigsten Fahrzeughersteller und Fahrzeugmodelle ab, die im Umlauf sind.

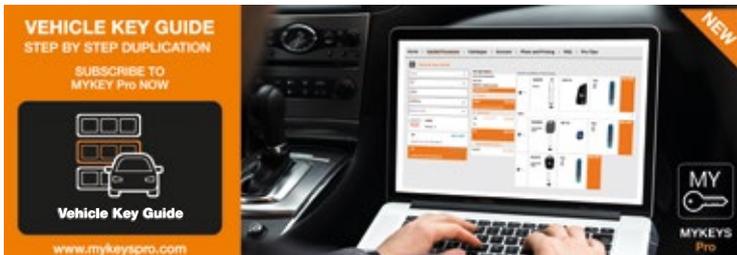

**PT -** A linha Car Key Shells Silca é a solução ideal para todas as situações em que a chave original não pode ser utilizada devido a danos na componente plástica, mecânica ou simplesmente porque gasta pelo uso. A componente eletrónica, ao contrário, é utilizada novamente inserindo-a no novo invólucro da chave dando nova vida à chave original. A gama Car Key Shells Silca abrange os modelos de veículo mais comuns em circulação.

**FR -** La gamme Silca de coques vides pour télécommandes de voiture est la solution idéale pour remplacer les pièces en plastique ou mécaniques endommagées ou usées. La coque Silca peut ensuite être combinée avec l'électronique d'origine pour créer une «nouvelle» clé de voiture. La gamme complète couvre les marques et les modèles de voitures en circulation les plus populaires.

**NL -** De Silca productenlijn Autosleutel Shells is de ideale oplossing voor alle situaties waarbij de originele sleutel niet meer kan worden gebruikt omdat het plastic of mechanisch onderdeel beschadigd of versleten is. De elektronische component wordt opnieuw gebruikt en in een nieuwe sleutelmantel geplaatst, zodat het originele sleutelblad kan worden gerecupereerd. Het assortiment Car Key Shells van Silca bevat de meest frequente automodellen op de markt.

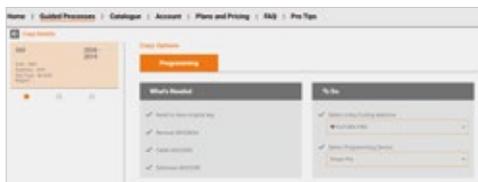

## KEY SHELL RANGE – MYKEYS Pro

**VEHICLE KEY GUIDE**  
 Choose **make, model and year** to see **immediately** what's needed to create the key.

**GUIDA CHIAVE VEICOLO**  
 Scegliere **la marca, il modello e l'anno** per vedere **immediatamente** cosa è necessario per creare la chiave.

**FAHRZEUGSCHLÜSSEL-LEITFA**  
**DEN** Wählen Sie **Marke, Modell und Baujahr**, um sofort zu sehen, was für die Erstellung des Schlüssels erforderlich ist.
